

ABHIJEET SHEWALE

Senior Data Analyst | Research Analyst | 4.5+ Years of Experience

 Bangalore, India |  abhijeet.shewale.05@gmail.com

SUMMARY

Senior Data Analyst and Research Analyst with over 4.5 years of experience optimizing data infrastructure and driving actionable business intelligence. Spearheaded the migration of complex datasets utilizing Python, SQL, Snowflake, and AWS, capturing \$50,000 in net revenue through infrastructure modernization. Adept at calibrating quantitative pricing models, developing custom data feeds, and building interactive Power BI dashboards that increase stakeholder engagement. Proven track record of mentoring analytics teams and accelerating report delivery velocity by 40% to support strategic, cross-functional decision-making.

EXPERIENCE

LLUBRAEB Analytics | Hyderabad, India | Remote

Senior Data Analyst : Nov 2024 – May 2026

- Led a cross-functional analytics unit by mentoring junior analysts on research methodologies, which accelerated report delivery velocity by 40% and prioritized team workloads.
- Leveraged market knowledge and client feedback to propose new data endpoints or asset class coverages to the executive team.
- Maintained the integrity of the F&O infrastructure by calibrating and validating quantitative pricing models (e.g., Black-Scholes) to ensure accurate calculation of real-time Greeks and Implied Volatility surfaces.
- Developed 20+ custom data feeds and specialized historical datasets by analyzing clients' algorithmic trading requirements, tailoring deliverables to integrate seamlessly with their proprietary execution engines.

100x (formerly Home.LLC) | Novato, California | Remote

Data Analyst : Mar 2024 – Nov 2024

- Executed the migration of 100+ Mode reports by utilizing Python, SQL, Snowflake, and AWS, capturing \$50,000 in net revenue through infrastructure modernization.
- Integrated complex datasets using advanced SQL and database management protocols, elevating data accuracy by 20% to guide key investment strategies.
- Developed 100+ interactive data visualizations and dashboards in Power BI, amplifying housing market insights and driving a 25% increase in stakeholder engagement across digital platforms.
- Directed mentorship programs for junior analysts to establish best practices, which optimized task efficiency by 25% and streamlined departmental recruitment workflows.

Research Analyst : Sep 2023 – Feb 2024

- Conducted quantitative research on residential real estate markets using historical pricing data and economic indicators, forecasting home price appreciation (HPA) and investment risk.
- Performed deep-dive demographic and regulatory analysis on new target markets, identifying high-yield ZIP codes to facilitate the company's expansion for home equity investments.
- Built and maintained automated dashboards to track critical business metrics—including Speed-to-Lead, Engagement Rates, and ROI—translating complex datasets into actionable summaries.
- Identified operational bottlenecks within the property valuation workflow, proposing and implementing data-driven solutions that reduced manual research time by 50%.

BusinessOnBot | Bangalore, India | On-site

Onboarding Specialist and Customer Success Executive : Jul 2022 – Aug 2023

- Managed the end-to-end onboarding lifecycle by streamlining WhatsApp Business API integration and official account verification, reducing average onboarding turnaround time from 15 days to 7 days.
- Conducted comprehensive product demonstrations and training sessions for client teams on the Unified Inbox, securing an 80% platform adoption rate and a 9/10 NPS.
- Led the integration of product catalogs and payment gateways with e-commerce platforms (Shopify, WooCommerce, Magento) to enable seamless in-chat transactions and automated checkout flows.
- Consulted with clients to deploy targeted customer journeys based on user behavior (e.g., Abandoned Cart Recovery), directly increasing client conversion rates by 10% and mitigating churn risk.
- Served as the primary liaison between clients and the Product and Engineering teams to resolve technical blockers and influence the product roadmap using direct user feedback.

XL Dynamics | Bangalore, India | On-site

Business Analyst : Dec 2021 – Jul 2022

- Managed high-volume data entry within a proprietary ERP system, ensuring database integrity and document security for sensitive financial records.
- Conducted comprehensive credit and financial analysis of U.S. mortgage applications by assessing borrower income, assets, and liabilities to accurately determine risk levels.
- Maintained a zero-error quality standard while consistently meeting daily processing targets.
